

## Digital Ionic High-speed Hair Dryers

The digital ionic high-speed hair dryer utilizes advanced NTC, digital screen, and negative ion technologies, featuring a 110,000 RPM brushless motor for powerful airflow. It quickly dries hair while releasing up to 240 million negative ions that nourish and enhance shine, providing users with a salon-level blow-drying experience at home.

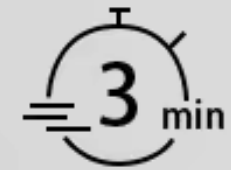

# Compared to traditional dryers, our digital ion hair dryers offer eight key advantages:

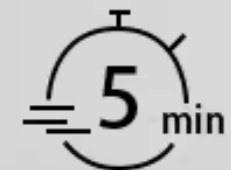

1. A 110,000 RPM brushless motor delivers wind speeds of 31m/s for rapid drying.

Blow dry short hair

Blow dry their shoulder hair

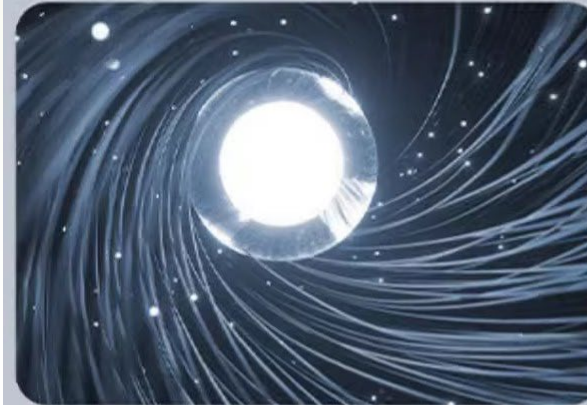

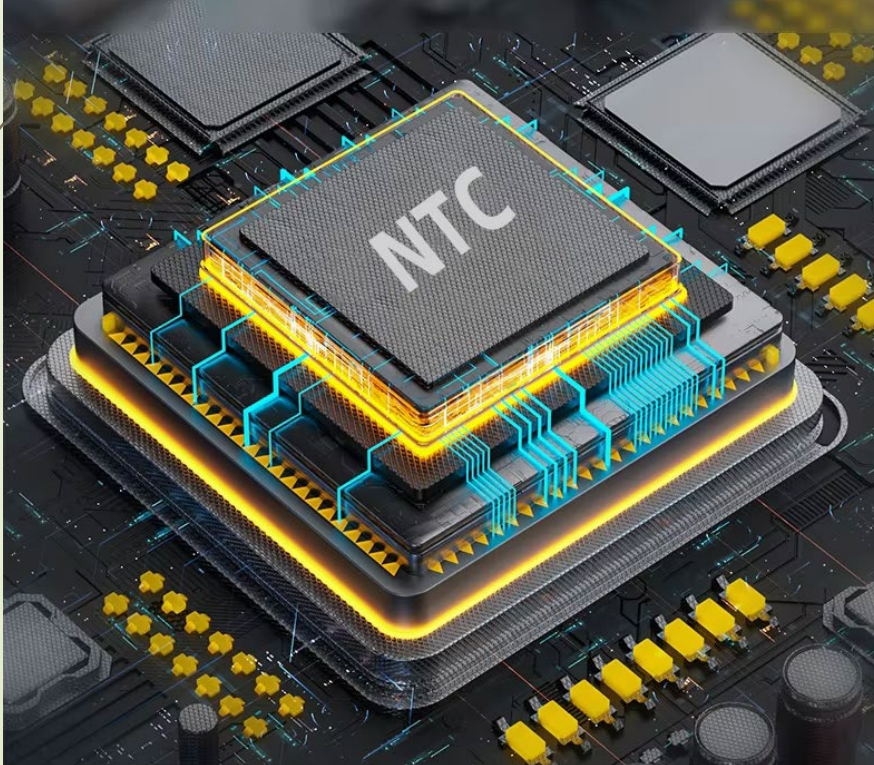

Blow dry long hair

2. Intelligent constant temperature control ensures precise adjustments to prevent overheating and burns on the scalp and hair.

## CONSTANT TEMPERATURE MAINTENANCE

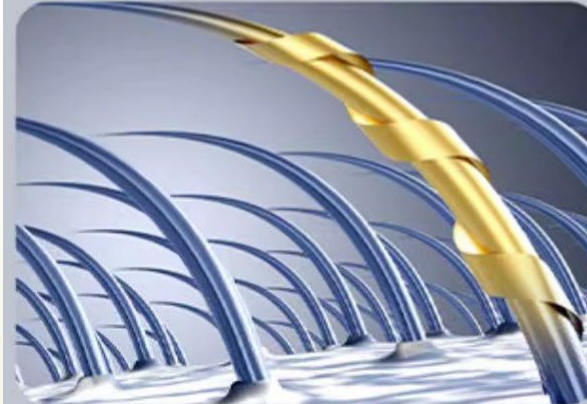

Built-in NTC Intelligent Chip High-Frequency Accurate Monitoring  
100 times/s Constant Temperature Calibration  
Stable Temperature, Effectively Avoid Overheating Burns

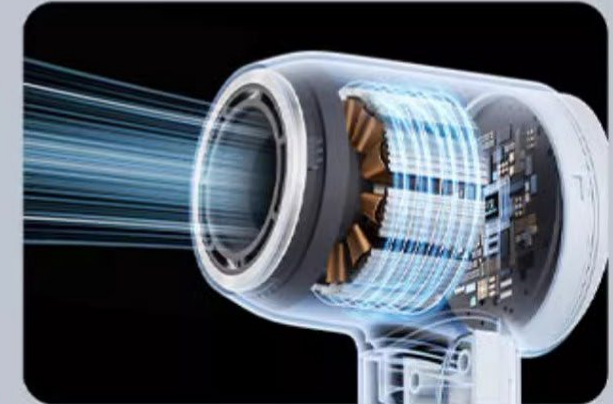

Eliminate static electricity in hair

3D wind sense

Protective hair scales

Hurricane force wind speed

3. Digital screens allow users to monitor drying temperatures in real-time to protect their hair.

## 8 Dry hair modes

4 levels of risk control  
2 levels of wind speed + 2 medium circulation mode

### More scalp-friendly

Hd digital display screen, blowing temperature real-time grasp

Choose a blow-out pattern that works for you

4. With 13 temperature settings from 35°C (95°F) to 90°C (194°F) , it caters to various hair types.

**Cold Wind**      **Healthy Warm Winds**      **Quick Drying Hot Air**

**Temperature Display**  
**Refuse High Temperature**  
**Hurt Hair**

**Precise Temperature Adjustment in 11 Gears**  
- Lower (lowest natural air)  
+ Higher (Max 90°C)

**Airspeed Setting**  
|| Strong wind  
| Soft wind  
○ Switching gear

**4-Speed Temperature Control**  
Natural air  
Warm air (50°C)  
Hot air (90°C)  
Hot/Cold cycle (press and hold for 2 seconds)

5. It releases up to 240 million negative ions during use, neutralizing static and smoothing frizz for softer, shinier hair.

## 240 MILLION NEGATIVE IONS

Less frizzy, more shine for hair

6. Ergonomic lightweight design enhances comfort and reduces hand fatigue during operation.

## LIGHTWEIGHT DESIGN COMFORTABLE GRIP

"402g lightweight body",

lighter than a bottle of water handle design ergonomic, more comfortable to hold, the more you use the more comfortable.

7. Quiet structure significantly lowers noise levels for a more pleasant experience. Noise < 70 db.

## NOISE INSULATION

Providing a peaceful night's  
Sleep for your loved ones

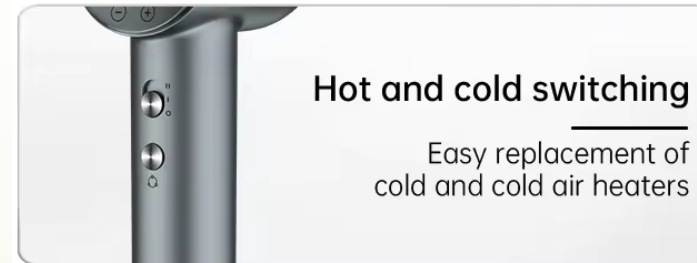

8. Magnetic nozzles and air filters simplify usage and maintenance.

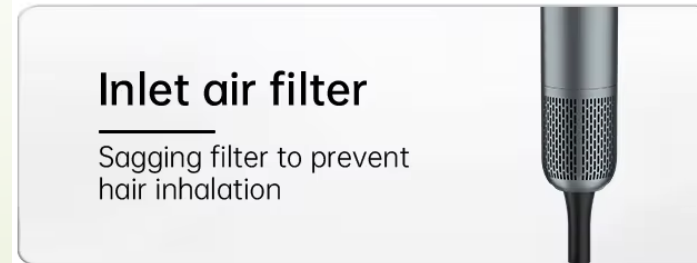

**Display screen**  
HD display  
intelligent screen display

**Magnetic nozzle**  
Compress again and  
the wind is stronger

**Hot and cold switching**  
Easy replacement of  
cold and cold air heaters

**Inlet air filter**  
Sagging filter to prevent  
hair inhalation

## BETTER QUALITY WITH MORE ATTENTION TO DETAIL

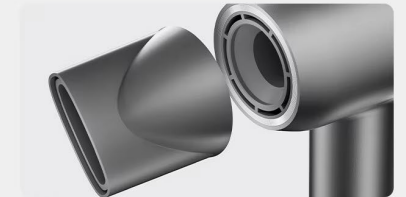

▼ HD Display / 11-speed temperature adjustment

▼ Comfort Button / CD pattern plated non-slip

▼ Smooth Nozzle / Magnetic nozzle

▼ Precision Filter / Ultra-dense metal filter, anti-dust and anti-hair absorption

## The notable advantages of the digital ionic hair dryer:

1. Powerful airflow combined with an intelligent temperature control system effectively protects hair from heat damage while quickly drying it.
2. High-concentration negative ions nourish hair, neutralize static, and eliminate frizz, providing a salon-quality blow-dry experience at home.
3. A visual display screen paired with 13 adjustable temperature settings allows users to easily monitor the temperature, offering protection for infants, seniors, pets, and those with speech or mobility challenges.
4. The ergonomic lightweight design ensures easier handling and convenience during use.
